August 1, 2008

To Whom It May Concern:

Summit Data Communications, Inc. is committed to full compliance with all applicable agency regulations. In keeping with this, please be advised of the following:

The Summit SDC-CF10AG 802.11a/g Compact Flash Wireless LAN Radio Module support the IEEE 802.11a wireless standard and operates in the 5 GHz portion of the radio frequency spectrum. This device uses only passive scanning techniques when operating in the 5.2 and 5.6 GHz bands (the Dynamic Frequency Selection band) and, further will not transmit in the 5600-5650 band.

Please contact me directly if any additional information or clarification is required.

Sincerely

A handwritten signature in black ink, appearing to read "Ronald Seide".

Ronald Seide  
President  
Summit Data Communications, Inc.
